

## PART IV. UNPUBLISHED DATA

The kinds of unpublished statistics tabulated in conjunction with 1960 Population Census Volume I and the joint 1960 Population and Housing Census Tract Reports are described below. Requests for any of these materials should be directed to Chief, Population Division, Bureau of the Census, Washington, D.C., 20233. Where the exact price of an item can be determined from a quotation based on number of areas or on total population, the data may be ordered directly on the basis of this information. Such requests should be accompanied by a check or money order made payable to "Census - Department of Commerce."

Where a specific cost is not quoted, or where there is insufficient information to compute an exact cost, a request for estimate of cost may be obtained from the Chief, Population Division. All requests for housing data should be directed to Chief, Housing Division, at the same address.

It must be stressed that all unpublished data are unrevised and unedited, and consequently may contain minor tabulation errors. It will be appreciated if all such errors are brought to our attention. Every effort has been made to recognize these errors in our final published reports, although this may not have been possible in all cases.

Reproduced tables may be in the form of original tabulation sheets, or photocopies, or Xerox copies of these sheets. Microfilm reels are 35mm, and the quoted prices relate to a positive copy. If the purchaser wishes to prepare his own Xerox prints, he will require a negative copy, the cost of which is twice the quoted price for the positive copy. The magnetic computer tape provided is compatible with the Univac Scientific, Model 1105 computers used by the Bureau of the Census. Questions on compatibility with other computers, including those of other manufacturers, should be addressed to the local service bureau of the company in question.

Following is a listing of all available items, cross-referenced to the four outlined tables.

1. Counts of number of inhabitants (also includes counts of housing units)
  - Reference - Table 1, headnote
  - Areas - Enumeration districts
  - a. Item - Reproduced listings
    - Cost - \$2.00 per 75,000 population or fraction thereof
  - b. Microfilm file of these listings
    - Cost - \$100 for the complete United States file
2. Complete-count population characteristics (also includes housing characteristics)
  - Reference - Table 1, column 1
  - Areas - Enumeration districts
  - Item - Remington Rand magnetic computer tape
    - Cost - May be obtained upon request; please specify States or portions of States desired. Conversion of tape to IBM binary format possible
3. Complete-count population characteristics (also includes housing characteristics)
  - Reference - Table 1, column 7
  - Areas - Enumeration districts
    - Minor civil divisions and similar small areas outside tracted areas
  - a. Item - Reproduced Special Table PH-1
    - Cost - Table PH-1 for enumeration districts is \$20.00 per 100,000 inhabitants, with a minimum charge of \$100.00 per order. Cost of this table for minor civil divisions and similar areas is \$4.00 per county
  - b. Item - Microfilm file of table PH-1
    - Cost - \$100.00 for the entire United States file of tracts, minor civil divisions and similar areas. No microfilm is available for enumeration districts
  - c. Item - Remington Rand magnetic computer tape
    - Cost - May be obtained upon request; please specify States or portions of States desired. Conversion of tape to IBM binary format possible
4. Sample population characteristics (also includes housing characteristics)
  - Reference - Table 2, column 1
  - Areas - Tracts in tracted areas
    - Minor civil divisions and similar areas outside tracted areas
  - Item - Remington Rand magnetic computer tapes
    - Cost - May be obtained upon request; please specify States or portions of States desired. Conversion of tape to IBM binary format possible
5. Unpublished sample data for tracts
  - Reference - Table 2, column 2
  - Areas - Tracts in tracted areas
  - a. Item - Reproduced Special Table PH-2
    - Cost - \$4.25 per 100 tracts or fraction thereof
  - b. Item - Microfilm file of Special Table PH-2
    - Cost - \$750 for the entire United States file
6. Unpublished sample data for minor civil divisions and similar areas
  - Reference - Table 2, column 3
  - Areas - Minor civil divisions and similar areas outside tracted areas
  - Item - Reproduced Special Tables:
    - PH-3, General Characteristics
    - PH-4, Labor Force Characteristics
    - PH-5, Characteristics of the Nonwhite Population
    - PH-6, Characteristics of the White Population with Spanish Surname
    - PH-7, Characteristics of the Population of Puerto Rican Birth or Parentage
  - Cost - \$4.00 each per county. The place of work code sheets needed to interpret the PH-4 tables are 50 cents each for the first ten counties, 40 cents thereafter
  - Microfilm costs upon request

## 7. Sample population data for the larger areas, distributions

Reference - Table 3, column 1

Areas - Each urban place of 2,500 or more, the remainder of each urbanized area, and the rural-farm and rural-nonfarm parts of counties

In New England, the portion of a standard metropolitan statistical area in a county, and towns of 10,000 or more, also are treated the same as other counties in the United States

Item - Remington Rand magnetic computer tape

Cost - May be obtained upon request; please specify States or portions of States desired. Conversion to IBM binary format possible

## 8. Sample population data for the larger areas, cross-classifications

Reference - Table 4

Areas - Each city of 100,000 population or more  
Remainder of each county of 250,000 population or more (outside New England)  
Remainder of each standard metropolitan statistical area of 100,000 population or more (by State)

Remainder of each State

In addition, where table 4 specifies data for nonwhites in selected areas, based on number of nonwhite persons, these data appear on the magnetic tape file without this size restriction

Item - Remington Rand magnetic computer tape

Cost - May be obtained upon request; please specify States or portions of States desired. Conversion of tape to IBM binary format possible

## 9. Magnetic computer tape reels of tallies for small areas by State

Areas - See paragraphs 2, 3c, and 4

Availability - Now

Cost - In 1964 costs averaged about \$120 per reel. However specific estimates must be prepared for each order to take account of factors such as volume, special computer time requirements, conversion from one computer system to another, and alteration of file contents

Detailed listing of the number of reels in each State file is shown in Appendix K.

## SUBJECT INDEX

(With the exception of the stated references to age, the basic characteristics of age, sex, and color do not appear in this index since most of the subjects are cross-classified by one or more of these characteristics)
